The Basic Science of Epilepsy and Aging

Lyndon F. Barnwell, M.D., Ph.D.
Assistant professor
Baylor College of Medicine

Objectives: At the end of this lecture, participants should be able to:

- ❖ Discuss the scope and etiology of epilepsy in the elderly.
- ❖ Discuss the neurobiology of the aging hippocampus in relationship to epilepsy.
- ❖ Discuss the basic mechanisms of epilepsy in the elderly.
- ❖ Discuss the treatment of epilepsy in the elderly.

Target Audience, Needs, Educational Methods, Activity Evaluation:

Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of *1.0 AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
