

Friday, August 3, 2007

8:00 to 9:00 AM

Onstead Auditorium

Hereditary Spastic Paraplegia

Paolo Moretti, MD

Assistant Professor

Department of Neurology

Department of Molecular and Human Genetics

Baylor College of Medicine

Objectives:

At the end of this lecture, participants should be able to:

- ❖ Recognize the major clinical manifestations of hereditary spastic paraplegia (HSP)
- ❖ Understand current knowledge of HSP genetics
- ❖ Understand current research data on the pathogenesis of HSP

Target Audience, Needs, Educational Methods, Activity Evaluation:

Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of *1.0 AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
