## Usual presentation of a muscular dystrophy

Justin Kwan, MD

Assistant Professor of Neurology  
Baylor College of Medicine

### Objectives:

The objectives of this lecture are to:

- ❖ Review the common and uncommon clinical presentation of a muscular dystrophy
- ❖ Identify the appropriate diagnostic evaluation for a patient with a muscular dystrophy
- ❖ Understand the currently proposed pathophysiology of a hereditary muscular dystrophy

### Target Audience, Needs, Educational Methods, Activity Evaluation:

Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

### Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of *1.0 AMA PRA Category 1 Credit(s)*<sup>™</sup>. Physicians should only claim credit commensurate with the extent of their participation in the activity.
