

Friday, January 11, 2008

8:00 to 9:00 AM

Onstead Auditorium

Mitchell Basic Science Research Building

Diagnosis and treatment of primary headache disorders

Nicolas Nammour, MD
Department of Neurology
Baylor College Of Medicine

Objectives:

At the end of this program, participants should be able to:

- identify the different types of primary headache syndromes
- understand the pathophysiological mechanisms involved
- learn treatment strategies and response to medications

Target Audience, Needs, Educational Methods, Activity Evaluation:

Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of *1.0 AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.
