12:00 noon

Blue Bird Auditorium, NB-137, Neurosensory Center

Update on Intracerebral Hemorrhage

Jose I Suarez, M.D.

Head, Vascular Neurology and Neurocritical Care

Associate Professor of Neurology

Baylor College of Medicine

Objectives:

At the end of this presentation, participants should be able to:

- Learn new pathophysiological concepts of hematoma evolution;
- Understand current management strategies for patients with intracerebral hemorrhage;
- Discuss emerging concepts for future clinical developments in intracerebral hemorrhage.

Target Audience, Needs, Educational Methods, Activity Evaluation:

Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Physicians should only claim credit commensurate with the extent of their participation in the activity.
