

**Baylor Psychiatry Grand Rounds**  
**Menninger Department of Psychiatry and Behavioral Sciences**

Cosponsored by Baylor College of Medicine and The Menninger Clinic  
November 2009

DeBakey Building-Room M112, 10:30-11:50 am

(This series is broadcast at The Menninger Clinic, Room 101, and The Michael E.  
DeBakey Veterans Affairs Medical Center Room 6B-184 )

---

**November 4, 2009**

**"Neuroimaging and Neurocognitive Studies of Pediatric  
Bipolar Disorder"**

**Jair C. Soares, M.D.**

Professor and Chairman

Department of Psychiatry

The University of Texas Medical School

Houston, Texas

Objective: At the conclusion of Grand Rounds, participants should be able to identify main features of bipolar disorder in pediatric age range and to define the contribution from brain abnormalities and possible elements of pathophysiology.

---

**November 11, 2009**

**"Mentalization Framework for Adolescent Inpatient  
Psychiatric Assessment and Treatment"**

**Laurel L. Williams, D.O.**

Director of Child and Adolescent

Psychiatry Residency Training

Baylor College of Medicine

**Carla Sharp, Ph.D.**

Associate Professor

Department of Psychology

University of Houston

Houston, Texas

Objective: At the conclusion of Grand Rounds, participants should be able to identify the clinical characteristics of adolescents admitted to the Menninger ATP Inpatient and Partial Programs and to describe the rationale for using a mentalization based framework for assessment and stabilization of adolescent patients in crisis.

## ***PLEASE NOTE DIFFERENT LOCATION***

**November 18, 2009**

***The Scholar Lecture in Psychopharmacology***

**"Translating Neural Circuits into Novel Therapeutics of Schizophrenia"**

**David A. Lewis, M.D.**

UPMC Endowed Professor in Translational Neuroscience

University of Pittsburgh

Department of Psychiatry and Neuroscience

Pittsburgh, Pennsylvania

Objective: At the conclusion of this activity, participants should be able to identify the need for a new strategy for developing medications to treat schizophrenia and the rationale for one such strategy, to identify the implementation of this strategy to discover novel drug targets and biomarkers, and to describe a proof-of-concept clinical trail of a new medication resulting from these efforts.

## **PLEASE NOTE THIS WILL BE IN ROOM N-315**

---

**November 25, 2009**

**NO GRAND ROUNDS  
HAPPY THANKSGIVING!**

---

**Target Audience, Needs, Educational Methods, Activity Evaluation:** Physicians, residents, fellows, and healthcare professionals from a variety of disciplines need to be updated in a wide variety of topic areas which address all aspects of psychiatric practice including psychopharmacology, psychodynamic psychotherapy, ethics in psychiatric practice, and the treatment of select patient population. This activity aims to address the continuing interest of mental health practitioners in contemporary thinking and research regarding a wide variety of clinical issues confronted in clinical practice. Given the continuous expansion of the understanding of the biological mechanisms for some psychiatric illnesses, all mental health professionals' educational needs are well served by ongoing exposure to the latest clinical research. Educational methods will include lectures, case presentations, audio/video presentations, panel discussions, and question & answer sessions. Participants will be asked to complete an activity evaluation.

### **Accreditation/Credit Designation**

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 1.25 *AMA PRA Category 1 Credit(s)*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Menninger Department of Psychiatry and Behavioral Sciences, Baylor College of Medicine, (License Number: 4066) is approved as a provider of continuing education in Social Work by the Texas State Board of Social Worker Examiners. This activity has been approved for .1 CEU.
