Noon – 1:00 PM

Neurosensory Center, Blue Bird Auditorium, NB-137

Aspects of Diabetic Neuropathy

Yadollah Harati, MD

Professor

Baylor College of Medicine

Objectives – At the conclusion of the session, the participants should be able to:

- Students will learn about the classification of diabetic neuropathy.
- Students will learn the pathogenesis of diabetic neuropathy.
- Students will learn some therapeutic aspects of diabetic neuropathy.

Target Audience, Needs, Educational Methods, Activity Evaluation: Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.
