12:00 noon

Blue Bird Auditorium, NB-137, Neurosensory Center

What's New In TIA

Thomas Kent, MD

Professor and Chief of Neurology

Michael E. DeBakey VAMC

Objectives – At the end of this lecture, participants should be able to:

- Understand the features of TIA that require emergent intervention
- Understand how to decide whether to hospitalize
- Define the different etiologies of TIA that relate to the urgency of intervention

Target Audience, Needs, Educational Methods, Activity Evaluation:

Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Physicians should only claim credit commensurate with the extent of their participation in the activity.
