

Neurology Grand Rounds

Sponsored by Baylor College of Medicine

Monday, May 23, 2011 12:00 noon Blue Bird Auditorium, NB-137, Neurosensory Center

The Impact in the Americas of Biotechnological Non-Innovative Therapeutic Molecules for MS

Victor Rivera, M.D.

Professor

Department of Neurology

Baylor College of Medicine

Objectives – At the conclusion of the session, the participants should be able to:

- Understand the challenges that treatment of MS with follow-on products are faced by the Latin American populations in the continent.
- Identify the concerns expressed by health care deliverers and patients groups towards "generic" interferons.
- Recognize the necessity of improving information and education of health officials and institutions.

Target Audience, Needs, Educational Methods, Activity Evaluation: Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 1.0 *AMA PRA Category 1 Credit(s)* $^{\text{TM}}$. Physicians should only claim credit commensurate with the extent of their participation in the activity.
