8:00 to 9:00 AM
Onstead Auditorium

Neuromyelitis Optica

George J. Hutton, M.D.
Assistant Professor of Neurology
Baylor College of Medicine

Objectives:
At the end of this program, participants should be able to:
- Differentiate neuromyelitis optica from multiple sclerosis on clinical, imaging and pathologic grounds.
- Discuss various treatment options for acute attacks and chronic management of NMO.
- Understand the role of NMO-IgG antibody and aquaporin 4 in the pathogenesis of NMO.

Target Audience, Needs, Educational Methods, Activity Evaluation:
Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation
Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 1.0 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.
