Managing patients with epilepsy: more than just seizure control?

David E. Friedman, M.D.
Assistant Professor
Peter Kellaway Section of Neurophysiology and
Baylor Comprehensive Epilepsy Center
Baylor College of Medicine

Objectives:
At the end of this presentation, participants should be able to:
- Understand the existence comorbid conditions associated with epilepsy.
- Understand the multiple factors impacting health-related quality of life in people with epilepsy.
- Discuss the utility of screening tools used during outpatient epilepsy encounters.

Target Audience, Needs, Educational Methods, Activity Evaluation:
Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation
Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Physicians should only claim credit commensurate with the extent of their participation in the activity.
