Monday, July 20, 2009
12:00 noon
Blue Bird Auditorium, NB-137, Neurosensory Center

Eyelid Apraxia

Veneetha Cherian, MD
Neurology Residency Program
Baylor College of Medicine

Objectives:
At the end of this presentation, participants should be able to:

- Understand Eyelid Apraxia and common conditions associated with it;
- Recognize the pathophysiology of eyelid Apraxia;
- Define Benign Unilateral Eyelid Apraxia

References:

Target Audience, Needs, Educational Methods, Activity Evaluation:
Physicians, residents, fellows, and other healthcare professionals need to be updated about new advances in the clinical and research areas for the diagnosis, treatment, and management of patients with neurological disorders. Educational methods will include lectures, case presentations, audio/video presentations, and questions & answer sessions. Participants will be asked to complete an activity evaluation.

Accreditation/Credit Designation
Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. Physicians should only claim credit commensurate with the extent of their participation in the activity.
