

**Date: 6/2014**  
**To: Valued Clients**  
**From: Baylor College of Medicine - Medical Genetics Laboratories**  
**RE: Discontinuation Memorandum**

Effective September 15, 2014, the Medical Genetics Laboratories at Baylor College of Medicine will discontinue the following tests:

- **9090 – MAX Sequence Analysis**
- **9025 – AKT1 Mutation Analysis - Tumor (FFPE Tissue)**
- **9026 – AKT1 Mutation Analysis - Tumor (Fresh Frozen Tissue)**

In place of the tests above, we recommend the alternative options:

- For AKT1 Mutation Analysis, we suggest our Cancer Gene Mutation Panel (test code 9705).
- For MAX sequence analysis, we suggest our Hereditary Pheochromocytoma-Paraganglioma Cancer Panel (test code 23104).

Please direct any billing questions to 713-798-3566 or email us at [medgenbilling@bcm.edu](mailto:medgenbilling@bcm.edu). Please visit our website for any additional notices or postings.

***Thank you for your valued business. We look forward to providing you with the highest quality genetic testing services.***

Sincerely,

Sean Y. Kim  
General Manager  
Medical Genetics Laboratories  
Baylor College of Medicine
