A course designed for physicians, trainees, and allied health professionals with interest or clinical practice in Gastroenterology and Hepatology. This course will serve as an update on latest diagnostic and therapeutic issues in GI and Hepatology. This program has been developed using a combination of lecture and case based curriculum designed to serve as an intensive review tool for GI and Hepatology Board Certification/Re-Certification Examination in 2020.

For questions, please email baylorgi@bcm.edu.
