"Sugar: A gut choice"

Diego V. Bohórquez, Ph.D.
Associate Professor
Gastroenterology and Neurobiology
Duke University
Durham, North Carolina

Dr. Bohórquez is a neuroscientist recognized for the discovery of a neural circuit that serves as the basis of gut brain sensory transduction. At Duke University, he leads a research team built with the vision to treat the brain from the gut. Their mission is to dissect gut-brain circuits underlying behaviors to improve health. Beyond the laboratory, Dr. Bohórquez founded Gastronauts - a global venue to disseminate knowledge on gut brain matters.
