A COLLABORATION  
BETWEEN EDUCATION  
INNOVATION CORE AND  
ACADEMIC TECHNOLOGIES

With campuses closing and learning shifting online, this transition can be an overwhelming experience. Online classes can present unique challenges, however, if you're not prepared. But if you do prepare,

## BLACKBOARD ALLY

Blackboard Ally is a tool to help make your course content more accessible. Download alternative accessible formats of your course files - choose from semantic HTML, audio, electronic braille and more.

Accessible files include readable text for screen readers, pictures with captions, and easy-to-navigate content. Ally creates multiple accessible alternatives from the original documents in your course. You can download accessible formats anywhere that files are used.

Accessible Formats	
<p>Ally generates alternative formats for these file types:</p> <ul style="list-style-type: none"> <li>■ PDF</li> <li>■ Word</li> <li>■ Powerpoint</li> <li>■ OpenOffice/LibreOffice</li> <li>■ HTML</li> </ul>	<p>Ally creates these alternative accessible formats:</p> <ul style="list-style-type: none"> <li>■ OCR version for scanned documents</li> <li>■ Tagged PDF version of Word, Powerpoint, and OpenOffice/LibreOffice files</li> <li>■ Semantic HTML</li> <li>■ ePub</li> <li>■ Electronic braille</li> </ul>

### Find Accessible Files

In your Blackboard course, locate a file's menu and select **"Accessible versions"**.

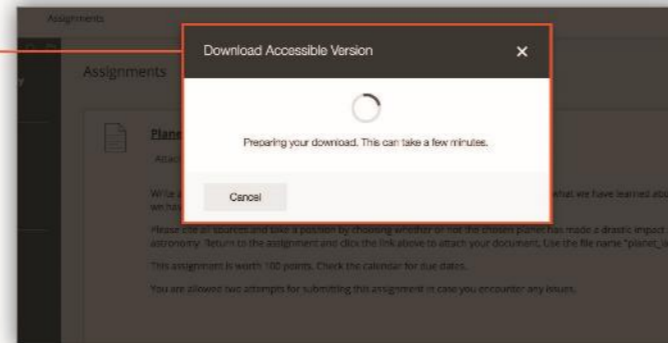

### Download Accessible Files

Once you found your course file, select the file dropdown and select Accessible versions.

A pop-up window lists accessible file options. Accessible versions may vary depending on the file type. Choose a version and select **"Download"**.

If this is your first download of a specific file type, a Preparing download notification appears. The download may take multiple minutes to complete.

Once your file downloads, you can open or save the accessible version. You can also return to the original file to get different versions. The instructor's original file will always remain in your course, regardless of which alternatives you select.

# EXAM ID & EXAM MONITOR

---

## **How It Works:**

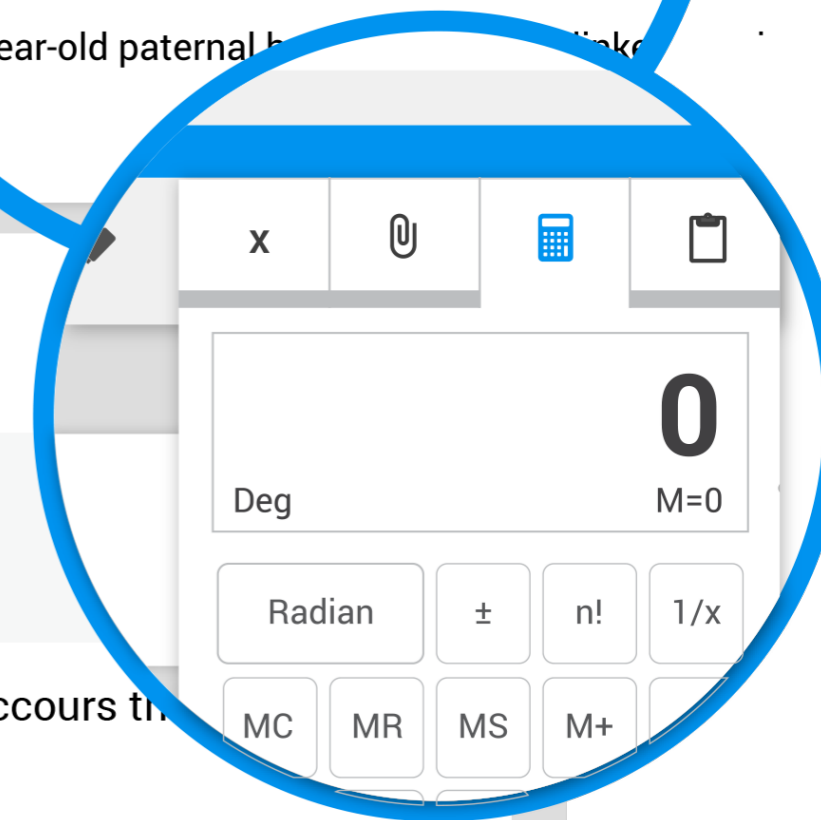

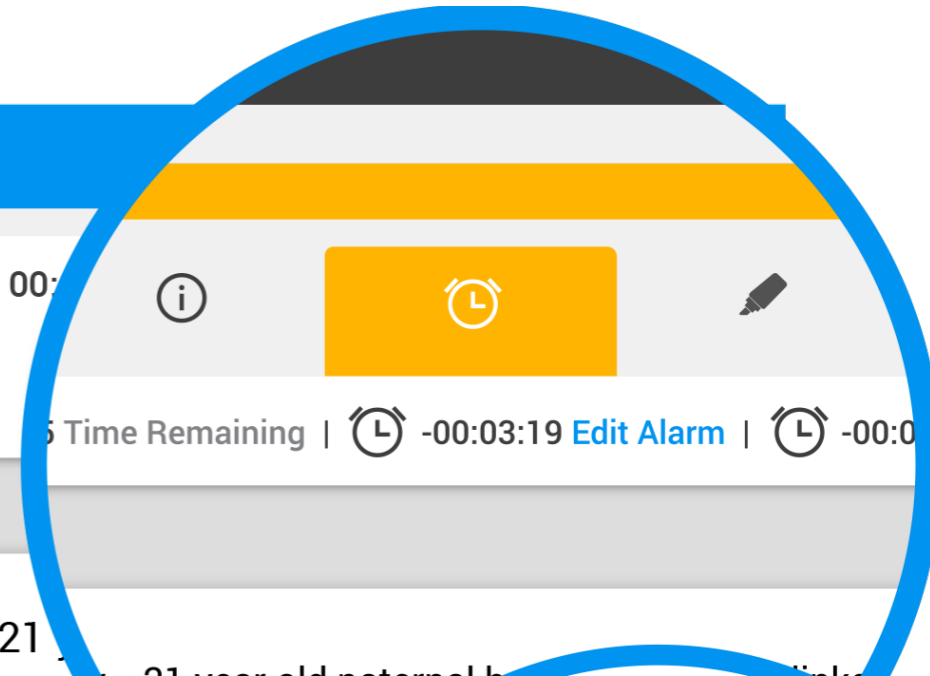

- ▶ Exam takers establish a “baseline” of authentication the first time they launch their first exam.
- ▶ For each subsequent assessment, exam takers will be verified against their username/password, and device’s webcam.
- ▶ Validated exam takers will be able to proceed with their assessments.
- ▶ An additional layer of security will be included through ExamMonitor, which provides proctoring services via webcam throughout the assessment.
- ▶ Once the exam is complete, the proctoring files are uploaded alongside the exam answer files and stored within ExamSoft.

🚩 Question #1 of 5

A 26-year-old healthy female is seen in genetics clinic because her < 21 year-old paternal brother has X-linked Fragile X Syndrome (>600 CGG repeats). What can you tell her about her children's risk of having Fragile X?

Answer A - D

- A ~~She has a 25% chance of being a carrier for Fragile X~~
- B ~~She has a 50% chance of being a carrier for Fragile X~~
- C Her children are at increased risk of having Fragile X, because expansion occurs through female meiosis
- D She is not at increased risk compared to the general population

# IMPORTANT THINGS TO KNOW

---

- ▶ You may be required to take the mock exam to set up ExamID *(please confirm with your School/Program)*
- ▶ The exam files you download are encrypted and password protected
- ▶ Any attempt to disable or tamper with Exemplify security features will be considered a violation of the BCM Honor Code.
- ▶ It is your responsibility to become familiar with the Exemplify software and instructions provided by the SOM and on the ExamSoft website prior to the start of your exam.
- ▶ Exam Proctors will be in each exam room to instruct you and will provide the exam password.

**Mistreatment**

Mistreatment, either intentional or unintentional, occurs when behavior shows disrespect for the dignity of others and unreasonably interferes with the learning process. Examples of mistreatment include sexual harassment, discrimination, humiliation, and other forms of assessment in a punitive manner.

Students should report all mistreatment to the Integrity Hotline at 855-764-7294 or go to the [Integrity Hotline Web Portal](#). Reports can be made anonymously. For more information see the [Student Handbook](#).

During your educational experience in this course, did you experience or witness any form of mistreatment? (Question 3 of 4 - Mandatory)

# HOW TO INSTALL VPN

---

- Open your browser
- Go to [vpn.bcm.edu](https://vpn.bcm.edu) and follow the directions
- For detailed instructions on how to install the Google Authenticator: <https://it.bcm.edu> (Use MFA in the keyword search)
- Must install the Google Authenticator app on your mobile device to provide the secure token to enter into the VPN app.
  - Once the Google Authenticator app is installed, the token refreshes every 15 seconds, so you have to be quick in entering it into VPN.
- Must be on the BCM network to set this up.

# BEFORE YOU CONFIGURE YOUR LAPTOP FOR WI-FI

---

- ▶ Change your BCM password.
- ▶ Why?
- ▶ Your 1st BCM Password is **TEMPORARY** and only last for **10 working days** - making it necessary to setup Wi-Fi again!

# BCM-WIFI NETWORK

---

- ▶ Wireless connectivity is available in all BCM buildings throughout campus. If prompted, use your BCM username and password.
- ▶ You will need the BCM Wireless Network to:
  - ▶ Access the BCM Intranet
  - ▶ Access applications that BCM licenses
  - ▶ Change your BCM password
- ▶ Do not configure the Guest Network
- ▶ If you change your password. Log out of any mobile devices before making the change. Make the change, then log back into your devices. If not, you may get locked out.

# WHAT PHONES DOES BCM SUPPORT FOR EMAIL

---

- BCM supports the iPhone and Android
- To set up your email, you must download the Mobile Device Management (MDM) app called Microsoft Intune and follow the instructions for configuration.
- To access instructions, go to: <https://it.bcm.edu> (use keyword “mobile” for more information)

# MFA & MDM

**MFA** is Baylor's 2 Step Verification for various sites

2 Step is triggered when outside of the BCM network

There are 2 Ways of Authenticating

- Google Authenticator
- SMS Authentication

**MDM** is the ability to add BCM email to your mobile device

It is separate from MFA

Manages mobile devices passively to ensure security of potential sensitive information

It is required for all Office applications on mobile devices such as teams and power apps.

More information on both services can be found at

[IT.BCM.EDU](http://IT.BCM.EDU)

FREE  
SOFTWARE/STORAGE

# FREE SOFTWARE THROUGH IT SERVICE PORTAL

- Office 365 ProPlus - Students may install on up to five (5) personal computers for home use using your BCM username and password. Go to Settings through [www.mail.bcm.edu](http://www.mail.bcm.edu).

- ***For Personal Devices:***

*Anti-Virus for personal devices is highly recommended; however, Baylor College of Medicine does not currently provide a no-cost option. There are many excellent options available for Mac and Windows computers, including free programs such as [Microsoft Security Essentials for Windows 7](#), [Microsoft Defender for Windows 8 & 10](#), [Sophos Anti-Virus for Mac Home Edition](#), or [Malwarebytes for Mac](#).*

# FREE STORAGE

- OneDrive is Baylor's online file sharing service. Use OneDrive to store, share, and collectively edit files. OneDrive can be accessed from any browser at <https://mail.bcm.edu> (1TB limit) by logging in with your BCM username and password, click on the app launcher  and chose One Drive.
