

MISSION

To provide excellent pediatric clinical training in the context of a pathway to scientific independence through intensive mentoring, guidance, and educational programming and a roadmap to preparedness. The program strives to train future academic pediatricians to provide superb care for children, engage in meaningful innovation through basic or clinical research, and mentor and train the next generation of pediatrician-scientists.

EXTENSIVE MENTORSHIP

At the beginning of the program, each PSP resident is assigned a series of mentors that are selected based on your research and clinical interests which are as follows:

Residency Educational Mentor - longitudinal career mentor, meet monthly, support from residency to junior faculty

Primary Research Mentor - basic/clinical or socio-behavioral research mentor, conduct 11 months of research during protected time during residency

Clinical Case Mentor - provides guidance and support for intern scholarly activities and liaison to research and clinical activities in specialty area of interest

Bi-annual meetings are held including program leadership, mentors, and clinical/research collaborators to support career development in a forum referred to as the **Resident Individualized Advisory Committee Meeting**.

ACADEMIC ADVANCEMENT ACTIVITIES

Annual Program Retreat – Held for all PSP residents and steering committee members, this two-day event combines family, scholarship, wellness, and social activities

Alternative Didactic Noon Conference – Academic and professional development topics, counts towards duty hours

Evening Pediatrician-Scientist Forum – Features the professional narrative of a pediatrician-scientist each month and serves as a networking event for pediatrician-scientists throughout the Texas Medical Center

Pediatrician-Scientist Grand Rounds – Specialized academic sessions where pediatric clinicians and pediatric researchers present and discuss cutting-edge topics in child health.
