

BIOETHICS GRAND ROUNDS

Research Ethics During a Pandemic

Objectives

At the conclusion of this activity, the participant should be able to:

- Examine the changes allowed by the FDA to receive emergency IND applications and expedite review in the COVID-19 setting
- Describe the mechanisms for informed consent during a pandemic
- Describe the initial response from Researchers, Sponsors, and the institution related to protocol submissions
- Describe the decisions and dilemmas related to initial surge of protocols
- Understand the mechanisms for rapid evaluation and escalation or research activities during a pandemic
- Explore mechanisms to address the different ethical and legal perspectives of clinicians, research personnel, the healthcare team, health care delivery systems, and society
